

Look at our history.

Be a part of our future.

1923. At the University of Missouri, construction begins on the Memorial Union Tower, a Gothic stone structure completed three years later as a memorial to University graduates who died in World War I.

1930. Work on the South Wing of the Memorial Union begins. Shortly thereafter, a depression begins. A crater remains on the site for more than 30 years.

1946. The Missouri General Assembly approves a bond issue to finance college recreational facilities. Work begins on the North Wing of the Memorial Union in 1950.

1952. The North Wing opens its doors September 8. The University of Missouri News reports, "The magnificent structure adjoining Memorial Tower has quickly assumed its role as an ideal center of student life."

1962. Construction resumes on the South Wing and begins on Brady Commons, an adjunct to the Memorial Union. Both structures are completed the following year.

Today. At the heart of the University of Missouri's Columbia campus, the Memorial Union serves as a gathering place for students, a meeting facility for both visitors and the University community, a host for dinners, banquets and receptions, and much, much more.

We're glad you're spending time with us. We look forward to serving you again.
